Sustainability  green peace full resort.

Mövenpick Resort Bangtao Beach Phuket is proud to earn the prestigious Green Globe certification. We are continuously reinforcing our dedication towards environmental conservation and to the Green Globe standards. For us it is essential to always research new methods and technologies helping to reduce our eco-footprint. We would like to thank the entire team for their commitment and ongoing efforts to accomplish this magnificent award and international recognition.

Michael Wenk
Resident Manager

Our intentions – our goals

The Mövenpick Resort Bangtao Beach Phuket has implemented a long term sustainability management system by monitoring energy consumption on a monthly basis. A high-efficiency air condition inverter compressor model is installed for energy-efficient heating and cooling. Water reduction goals are set and the property makes use of water from their own treatment plant, located in the city. The resort's purchasing policy favors suppliers adhering to the best environmental and social practices. Guests can enjoy local art and architecture in the lobby and spa, and the Mövenpick Resort Bangtao Beach Phuket supports community-related activities promoting the area's nature, history and culture.

We at Mövenpick Hotels & Resorts also endeavor to ensure to:

- Comply with applicable environmental laws, regulations and other requirements
- Provide sound stewardship of our environmental resources
- Promote the use of safe technologies and operation practices that minimize our impact on the environment
- Respond immediately to emergencies and minimize any adverse impacts
- Continually improve our environmental performance through procedures established in the Environmental Management System
- Set environmental objectives and target goals, and measure our progress to these goals
- Implement an effective pollution prevention program (minimize the generation of wastes, reduce and recycle materials, investigate and evaluate new practices and procedures and dispose of wastes in an environmentally responsible manner).
- Ensure the responsible use of energy and water throughout the hotel by implementing innovative practices and procedures for conservation.

Green Globe certified

Becoming Green Globe certified has been one of our major aims here at Mövenpick Resort Bangtao Beach Phuket.

We have been certified since January 2013. Green Globe is the global travel and tourism industries' program for sustainable tourism. We value the Green Globe standards because we are constantly attempting to make as low impact on the environment and the local culture as possible.

We want to contribute to the conservation of natural and cultural heritage that surrounds us, support communities and ensure quality employment for local people. Our aim is to measure and analyze the impact of our practices, initiate changes, reduce waste and pollution and source for renewal energies and green products.

We believe that the future is in our hands and each of us can contribute to the environment by having a greener lifestyle and reducing his/her collective footprints.

Our Social and Culture sustainability objective:

- Positively contribute to the country and community in a mutually beneficial and sustainable way
- Work hand in hand with registered local and global charity partners
- Support local charitable events and organizations
- Organize and support fundraising initiatives
- Implement donation schemes
- Promote local products and handcraft
- Work close with local hotel schools
- Protect children from sexual abuse and sexual exploitation in tourism
- Create awareness on local National Conservation Parks and eco-friendly tours and excursions

Community activities, donations, charity events

- Together with local authorities we participate in activities such as giving gifts to children on children's day.
- With our purchase of colorings books we support the Phuket News in helping the underprivileged children of the 'Phuket Has Been Good To Us' Foundation.
- Together with local authorities we participate in a beach clean-up along Bangtao Beach.
- We participate in the annual blood donation program for The Phuket Red Cross.
- We provide funds and parties for the kids of the "Child Care Holland House". 50-60 children and participate in a full day of games and fun, including lunch with special treats.
- We participate in the annual turtle foundation Together with Royal Thai Navy.
- In corporation with local authorities we regularly donate bed linen, towels and uniforms to people in need in the Northern and Eastern local provinces.

Environmental sustainability objectives:

- Comply with applicable environmental laws, regulations and other requirements
- Promote the use of safe technologies and operation practices that minimize our impact to the environment.
- Set environmental objectives and target goals, and measure our progress to these goals.
- Implement an effective pollution prevention program – minimize the generation of wastes, reduce and recycle materials , investigate and evaluate new practices and procedures and dispose of wastes in an environmentally responsible manner
- Reduce or optimize usage of chemicals and implement bio-degradable alternative produces
- Reduce CO2 emissions
- Ensure the responsible use of energy and water throughout the hotel by implementing innovative practices and procedures for conservation.
- Energy efficient lighting
- Water consumption reduction
- Optimize energy consumption
- Introduce supplier sustainability partnerships where possible
- Apply environmental awareness to our purchasing practices
- Encourage and sought for customer feed-back and measure customer satisfaction
- Implement corrective action plans and training
- Protect eco systems and endangered species

Employer sustainability objectives:

- Contribute to the local economy by hiring and developing local people
- Enable people with physical and other challenges to become part of our workforce
- Ensure equal access to all learning and development
- Provide equal opportunities to all our team members
- Provide sustainability training and education to all our team members
- Become a preferred and value driven employer
- Guarantee fairness and transparency in employment contracts, pay, compensation and benefits
- Improve employee engagement, wellbeing and security
- Encourage communication

Waste removal and recycling

Facilities Management oversees the daily collection of waste and all recycling efforts to ensure an environmentally safe and compliant campus. The department manages the removal of all solid waste and trash from offices, guest rooms and commons areas with contained trash that enable the safe and easy removal of waste.

- Properly treated wastewater or effluents are reused , when feasible (irrigation, toilet or other)
- For chemical product, we work with Johnson Diversey environment friendly products; the company is Green Globe certified.
- separate Paper/Cardboard, glass, tin, batteries, plastic, oil
- Looks for products to be bought in bulk packaging to reduce unnecessary packaging material.

Common Goal

Let's take immediate actions to reduce the negative impact on the environment. The things we do as part of our everyday lives can help us reduce our carbon footprints, advance the sustainability of our business, improve our performance and reduce costs. By making small changes we can make a big difference.

We would appreciate your consideration in helping us by simply turning off all lights and the individual air-conditioning unit whenever possible. Help us save water and energy by letting us know when you wish to have the bed and bath linen replaced,

Mövenpick Resort Bangtao Beach Phuket strives to further reduce energy and water consumption by 5% until 2015 and to educate and inspire associates, guests and staff to conserve and preserve the environment.

Give us your opinion

We welcome your suggestions to help us enhance our sustainability objectives and social responsibilities.
